Patient Program

For patients prescribed ADAKVEO

What you need to know about ADAKVEO Connect

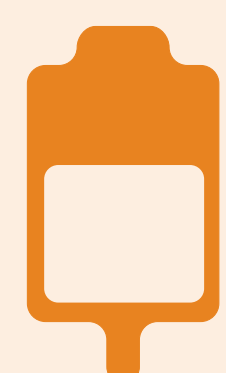

What does the program provide to you?*

One-on-one support from a dedicated Case Coordinator with a background in social work during your treatment with ADAKVEO® (crizanlizumab-tmca)

Areas of support include:

- Providing information about ADAKVEO and navigating the health care system

- Sending reminders about your upcoming infusion appointments via text

- Finding resources that may help based on what you need (food, transportation, and more)

- Educating you on the typical insurance process for ADAKVEO†

*The ADAKVEO Connect program is not intended to take the place of your health care providers and does not provide medical or clinical advice.

†When a Benefits Investigation is in process via PANO (a Novartis patient access program), you may be able to receive updates on the status of your personal insurance approval.

“As a Case Coordinator, I’m a listening ear, your sounding board and partner as you start a long-term treatment, which we know can be challenging.”

Jennifer
Case Coordinator

Case Coordinators have the time, motivation, and commitment to help you figure out the steps to achieve your goals.”

Emily
Case Coordinator

Personalized

Your Case Coordinator can focus on the areas most important to you

Free

No cost to you but, depending on your phone plan, message and data rates may apply

Convenient

Support is offered via phone, text, email, and/or mail

Your participation is voluntary, and you can opt out at any time.
